

receive the at least one request from the device; and  
allow the device to access the stored data based, at least in part, on the  
authorization status at the time the request is received.

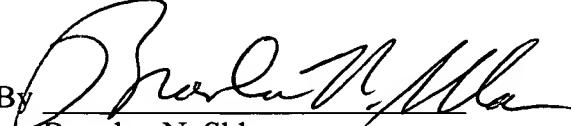

**R e m a r k s**

Claims 1-67 are pending and have been allowed. Claims 44 and 45 are amended to change “method” to “computer-executable process,” as recited in independent claim 43, upon which they depend.

This amendments merely correct a formal matter in the claims without changing the scope thereof, are not substantive, and raise no new issues regarding the allowability of the claims. It is believed that no substantial amount of additional work is required on the part of the Office.

Entry of the amendments are respectfully requested.

Respectfully submitted

By
